INDEX TO VOLUME XL, 1928.

PAGE

Aeronautics, Progress in (Note) ... 135
Air and Sea Navigation (Note) ... 516
Air, Pre-heated, for Boiler Furnaces (Note) ... 526
Aircraft Engines, Navy, Near Future Developments in (Note) ... 326
Analysis of Fuel Consumption of Diesel Motorships, by C. F. Gross and B. W. Martin ... 229
Association Notes ... 180, 345, 539, 726
Balancing Machines, New Dynamic-Static (Note) ... 123
Banquet, Annual, American Society of Naval Engineers ... 397
Battleships, Smaller in Prospect (Note) ... 321
Beardmore Oil-Engined Cross-Channel Motorship, Proposed ... Facing 148
Blading, Turbine, Problems, by S. M. Robinson ... 223
Blower, Forced Draft, Westinghouse, Schmidt Propeller Type, Description and Test, by Joseph B. Lincoln and Burnett F. Treat ... 424
Blowers and Pumps, Some Screw Propeller Experiments with Particular Reference to, by Henry F. Schmidt ... 1
Boilers, Marine, for High Pressures, by J. B. Stillman ... 286
Boilers, Marine, for Higher Pressures and Temperatures and Their Contribution to Greater Economy, by J. H. King ... 238
Boilers, Modern, Characteristics of (Note) ... 107
Boiler Explosion on the *King George V* (Note) ... 510
Boiler Furnaces, Pre-Heated Air for (Note) ... 526
Boiler Tubes, Hydraulic Method of Cleaning Fire Side of (Note) ... 335
Book Reviews ... 176, 538, 724
Brierly, R. C., and Evans, J. S., Commander, U. S. N., Marine Development of Pulverized Coal ... 383
Discussion by C. W. Dyson ... 501
Brinell Hardness Test as Applied to Marine Engines (Note) ... 339
British River Gunboats for China (Note) ... 320
Bruce, Bryson, Commander, U. S. N., River Gunboats for Yangtze Service, U. S. S. *Guam* and U. S. S. *Tutuila*, Description ... 351
Brushes, Carbon, The Problem of Replacements and the Necessity for Standardization, by J. B. Lunsford ... 65
Burmeister & Wain Proposes a 100,000 S. H. P. Diesel Engine Installation (Note) ... 148

PAGE

California, Electrically Propelled Liner, Some Thoughts Suggested by (Note) 323
California (Panama Pacific Liner), *King George V* and *Mercer* (Note) 508
Canoose, J. E., Lieutenant, U. S. N., Results of a Study of the Effect of Spray Valve Residual Oil on Diesel Engine Governability..... 185
Carbon Brushes, The Problem of Replacements and the Necessity for Standardization, by J. B. Lunsford..... 65
Champlain, Chelan, Pontchartrain, Tahoe and *Mendota*, U. S. Coast Guard Cutters, by Q. B. Newman..... 673
Characteristics of Modern Boilers (Note)..... 107
Chelan, Pontchartrain, Tahoe, Champlain and *Mendota*, U. S. Coast Guard Cutters, by Q. B. Newman..... 673
Circuits, Propulsion, of U. S. S. *Lexington*, by Edgar Kranzfelder..... 546
Cleaning the Fire Side of Boiler Tubes, Hydraulic Method of (Note).... 335
Coal, Oil From, German Success in Obtaining (Note)..... 130
Coal, Pulverized, Marine Development of, by J. S. Evans and R. C. Brierly 383
Discussion by C. W. Dyson..... 501
Coast Guard Cutters *Chelan, Pontchartrain, Tahoe, Champlain* and *Mendota*, by Q. B. Newman..... 673
Comparison of Turbo-Electric and Diesel Drive in Large Passenger Ships (Note) 504
Condenser, Surface, Tests (Note)..... 713
Corrosion and Oil (Note)..... 520
Corrosion by Oil in Practice (Note)..... 149
Corrosion Test, Direct (Note)..... 342
Crankshafts, Welding (Note)..... 536
Cruisers, German, Electrically Welded (Note)..... 112
Developments in Navy Aircraft Engines, Near Future (Note)..... 326
Description, History and Acceptance Trials of the U. S. S. *Lexington*, by C. S. Gillette..... 438
Diesel Drive and Turbo-Electric Drive in Large Passenger Ships, Comparison of (Note)..... 504
Diesel-Engine Fuel Indicators (Note)..... 329
Diesel Engine Governability, Result of Study of Effect of Residual Spray Valve Oil On, by J. E. Canoose..... 185
Diesel Engine Installation, 100,000 S. H. P., Burmeister & Wain Proposes a (Note)..... 148
Diesel Engines for the Navy (Note)..... 154
Diesel Engine Selection, Problems of (Note)..... 523
Diesel Motorships, Analysis of Fuel Consumption of, by C. F. Gross and B. W. Martin..... 229
Direct Corrosion Test (Note)..... 342

PAGE

Discussion of paper by H. F. Schmidt, in February, 1928, Journal, on "Some Screw Propeller Experiments with Particular Reference to Pumps and Blowers," by H. F. Hagen 314
Discussion of the Various Pulverized Fuel Systems, by Henry Kreisinger 266
Distilling Sea Water, Making of Fresh Water by, in 1792, Experiments of Captain John Foster Williams, U. S. R. C. S., by Elliot Snow 541
Dynamic-Static Balancing Machines, New (Note) 123
Dyson, C. W., Rear Admiral, U. S. N., Retired, Discussion of paper on Marine Development of Pulverized Fuel by J. S. Evans and R. C. Brierly in August, 1928, JOURNAL OF AMERICAN SOCIETY OF NAVAL ENGINEERS 501
Economics of Marine Reciprocating Engines, by Edwin A. Stevens, Jr. 32
Economy, Contribution of Marine Boilers for Higher Pressures and Temperatures to, by J. H. King 232
Effect of Spray Valve Residual Oil on Diesel Engine Governability, Results of Study of, by J. E. Canoose 185
Electrically Propelled Liner *California*, Some Thoughts Suggested by (Note) 323
Electrically Welded German Cruisers (Note) 112
Electric-Turbo and Diesel Drive in Large Passenger Ships, Comparison of (Note) 504
Engineering, Bureau of, Relation of to the Forces Afloat in Connection with Upkeep of Machinery, by H. A. Seiller 90
Engine, Diesel, Fuel Indicators (Note) 329
Engine, Diesel, Governability, Result of Study of Effect of Residual Spray Valve Oil on, by J. E. Canoose 185
Engine, Diesel, 100,000 S. H. P. Installation, Burmeister & Wain Proposes (Note) 148
Engine, High Speed, Two-Cycle, Double Acting; Study of Possibilities of; with Particular Reference to Its Availability for High Powered Naval Installations, by A. M. Procter 629
Engines, Aircraft, Navy, Near Future Developments in (Note) 326
Engines, Diesel, for the Navy (Note) 154
Engines, Marine, Brinell Hardness Test as Applied to (Note) 339
Engines, Marine Reciprocating Economics of, by Edwin A. Stevens, Jr. 32
Engines, Oil, Exhaust Temperatures as Load Index for, by E. C. Magdeburger 496
Engine Selection, Diesel, Problems of (Note) 523
Experiment and Research, Scientific, and the Navy (Note) 532
Experiments with Screw Propellers, with Particular Reference to Pumps and Blowers, by Henry F. Schmidt 1
Explosion, Boiler, on the *King George V* (Note) 510

PAGE

Evans, J. S., Commander, U. S. N., and Brierly, R. C., Marine Development of Pulverized Coal ... 383
Discussion by C. W. Dyson ... 501
Exhaust Temperature as Load Index for Oil Engines, by E. C. Magdeburger ... 496
Forced Draft Blower, Westinghouse, Schmidt Propeller Type, Description and Test, by Joseph B. Lincoln and Burnett F. Treat ... 424
Four-Day Liners, The (Note) ... 505
Fresh Water, Making by Distilling Sea Water in 1792, Experiments of Captain John Foster Williams, U. S. R. C. S., by Elliot Snow ... 541
Fuel Consumption of Diesel Motorships, Analysis of, by C. F. Gross and B. W. Martin ... 229
Fuel Indicators, Diesel-Engine (Note) ... 329
Fuel, Pulverized, for Marine Installations, Remarks on Use of, by R. D. Gatewood ... 278
Fuel, Pulverized, Sea-Going, by C. J. Jefferson ... 274
Fuel Systems, Pulverized, Discussion of the Various, by Henry Kreisinger ... 266
Fundamentals of Technical Vibration (Note) ... 113
Funk, N. E., Higher Steam Pressures ... 256
Furnaces, Boiler, Pre-heated Air for (Note) ... 526
Gatewood, R. D., Captain (C. C.), U. S. N., Remarks on the Use of Pulverized Fuel for Marine Installations ... 278
German Success in Obtaining Oil From Coal (Note) ... 130
Gillette, C. S., Commander, U. S. N., History, Description and Acceptance Trials of U. S. S. *Lexington* ... 438
Governability, Diesel Engine, Result of Study of Effect of Residual Spray Valve Oil on, by J. E. Canoose ... 185
Gross, C. F., and Martin, B. W., Analysis of Fuel Consumption of Diesel Motorships ... 229
Guam, U. S. S., and *Tutuila*, U. S. S., River Gunboats for Yangtze Service, Description, by Bryson Bruce ... 351
Gunboats, River, for China, British (Note) ... 320
Hagen, H. F., Discussion of paper by H. F. Schmidt, in February, 1928, Journal on "Some Screw Propeller Experiments with Particular Reference to Pumps and Blowers" ... 314
Hardness Test, Brinell, as Applied to Marine Engines (Note) ... 339
High Steam Pressures, Turbines for (Note) ... 721
History, Description and Acceptance Trials of the U. S. S. *Lexington*, by C. S. Gillette ... 438
Hydraulic Method of Cleaning the Fire Side of Boiler Tubes (Note) 335
Impurities and Priming in Feed Water (Note) ... 331
Indicators, Fuel, Diesel Engine (Note) ... 329
Inspection, Training and Supervision (Note) ... 530
